

INDEX

VOLUME 40—1980

The format of this year's annual index has been changed to conform to the style and format which was adopted in compiling the *PAR Cumulative Index*. Thus, this year's annual index consists of listings by author and subject, as well as a third listing of all books reviewed during this volume year. The previous practice of coded designations of articles by

type has been discontinued, with the exceptions of book review essays and editorials. The designations (BRE) and (E) are utilized to identify these entries. A more detailed explanation of the procedures applied in compiling the index for this volume is set forth in the *PAR Cumulative Index* (p. 1).
